

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings of claims in the application:

**Listing of Claims:**

1                   1.       (Original) An antibody that comprises at least one amino acid sequence as  
2 listed in SEQ ID NOs:1-8 which can bind to Factor IX/Factor IXa and increase the  
3 procoagulation activity of FIXa.

1                   2.       (Original) The antibody according to claim 1, wherein the antibody  
2 comprises at least one complement determining region (CDR), the at least one CDR comprising  
3 at least one amino acid sequence as listed in SEQ ID NOs:3-8.

1                   3.       (Original) The antibody according to claim 2, wherein the antibody  
2 comprises at least three CDRs (CDR1, CDR2 and CDR3) that are embedded in four framework  
3 regions, wherein one or more of the at least three CDRs comprise an amino acid sequence as  
4 listed in SEQ ID NOs: 3 to 8.

1                   4.       (Original) The antibody according to claim 3, wherein the antibody  
2 comprises one or more CDR3, each CDR3 comprising an amino acid sequence selected from the  
3 group consisting of SEQ ID NOs: 5 and 8.

1                   5.       (Original) The antibody according to claim 3, wherein CDR1, CDR2 and  
2 CDR3 each comprise an amino acid sequence selected from the group consisting of SEQ ID  
3 NOs: 3-5.

1                   6.       (Original) The antibody according to claim 3, wherein CDR1, CDR2 and  
2 CDR3 each comprise an amino acid sequence selected from the group consisting of SEQ ID  
3 NOs: 6-8.

- 1                   7.     (Original) The antibody according to claim 2, wherein the antibody  
2     comprises at least one of the amino acid sequences listed in SEQ ID NOs: 1-2.
- 1                   8.     (Original) The antibody according to claim 7, wherein the antibody  
2     comprises both of the amino acid sequences listed in SEQ ID NOs: 1-2.
- 1                   9.     (Original) The antibody according to claim 1, which is an IgG antibody.
- 1                   10.    (Original) The antibody according to claim 1, which is a monoclonal  
2     antibody.
- 1                   11.    (Original) The antibody according to claim 1, which is an antibody  
2     fragment.
- 1                   12.    (Original) The antibody according to claim 1, which is a recombinant  
2     antibody.
- 1                   13.    (Original) The antibody according to claim 12, which is a single chain  
2     antibody.
- 1                   14.    (Original) The antibody according to claim 1, which is a humanized  
2     antibody.
- 1                   15.    (Original) The antibody of claim 1, wherein the antibody is labeled.
- 1                   16-21. (Canceled)
- 1                   22.    (Original) A pharmaceutical composition comprising an antibody of  
2     claim 1 and a pharmaceutically acceptable carrier and/or diluent.

1                   23.    (Original) The pharmaceutical composition of claim 22, wherein the  
2   antibody comprises at least one complement determining region (CDR), the at least one CDR  
3   comprising at least one amino acid sequence as listed in SEQ ID NOs:3-8.

1                   24.    (Original) The pharmaceutical composition according to claim 23, further  
2   comprising factor IX, factor IXa, factor IXa and/or factor IX.

1                   25-27. (Canceled)
